Note: This application is not acceptable unless all required information is furnished and accurate. Every permit issued by the Zoning Official under the provisions of this code shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within 90 days from the date of such permit, or if the building or work authorized by such permit is not completed within one year from issuance of permit. Approval of this building permit should not and shall not be construed as an approval of the endorsement or ability of the contractors involved, the suitability for the proposed use of the plans submitted, the fitness of the proposed location of the construction, the ownership of the land shown, a right to change water drainage in any manner or to grant any other right or authority except as is authorized by the Brule County Zoning Ordinance. The above information is, to the best of my knowledge, true and accurate. It is understood and agreed that any error, misstatement of misrepresentation of fact, either with or without intention on my part such as might, if known, cause a refusal of the application, or any alteration or change in plans made without the approval of the zoning administrator, subsequent the issuance of the building permit, shall constitute sufficient grounds for the revocation of such permit.
